## Report of Independent Auditors

Board of Directors HealthTrust, Inc.

## Report on the Audit of the Financial Statements

## **Opinions**

We have audited the accompanying financial statements of HealthTrust, Inc. (HealthTrust) and it's discretely presented component unit, Center at Triangle Park, Inc. (CTP), which comprise the statements of net position as of June 30, 2024 and 2023 and the related statements of revenues, expenses and changes in net position and cash flows for the years then ended, and the related notes to the financial statements, which collectively comprise HealthTrust's financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of HealthTrust and CTP as of June 30, 2024 and 2023, and the changes in net position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America (GAAP).

## **Basis for Opinions**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (Government Auditing Standards). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of HealthTrust and CTP and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about HealthTrust's and CTP's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing an
  opinion on the effectiveness of HealthTrust's and CTP's internal control. Accordingly, no such
  opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about HealthTrust's and CTP's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Required Supplementary Information**

GAAP requires that the Management's Discussion and Analysis on pages 4 - 16, the Reconciliation of Claims Liabilities by Type of Contract on pages 55 - 56, the Ten-Year Schedule of Claims
Development Information on pages 57 - 58 and the Ten-Year Schedule of Employer Pension
Information on page 59 be presented to supplement the basic financial statements. Such
information, although not a part of the basic financial statements, is required by the Governmental
Accounting Standards Board, who considers it to be an essential part of financial reporting for
placing the basic financial statements in an appropriate operational, economic or historical context.
We have applied certain limited procedures to the required supplementary information in
accordance with GAAS, which consisted of inquiries of management about the methods of
preparing the information and comparing the information for consistency with management's
responses to our inquiries, the basic financial statements and other knowledge we obtained during
our audit of the basic financial statements. We do not express an opinion or provide any assurance
on the information because the limited procedures do not provide us with sufficient evidence to
express an opinion or provide any assurance.

## **Other Reporting Required by Government Auditing Standards**

huson Jambert LLP

In accordance with *Government Auditing Standards*, we have also issued our report dated October 23, 2024 on our consideration of HealthTrust's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of HealthTrust's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering HealthTrust's internal control over financial reporting and compliance.

## Management's Discussion and Analysis (Unaudited)

Years ended June 30, 2024 and 2023

#### Introduction:

As management of HealthTrust, Inc. (HealthTrust), we offer readers of the financial statements this narrative overview and analysis of the financial activities of HealthTrust for the fiscal years ended June 30, 2024, 2023 and 2022. This section, the management's discussion and analysis, is intended to provide an overview of HealthTrust's financial condition, results of operations, and other key information.

As more fully explained in this section, the years ended June 30, 2024 and 2023 together with years ended June 30, 2022, 2021 and 2020 show the full impact of the COVID-19 pandemic (COVID) on HealthTrust.

During COVID HealthTrust experienced significant gains, due to a lack of expected claim expenses as provider offices were closed, elective procedures were postponed, and other similar access to care issues arose. The resulting large reduction in claims more than offset the increased cost of COVID-related treatment. As such, actual claims were well below the level anticipated in the rating process and therefore significant surpluses occurred both in FY2020 and FY2021. In accordance with RSA 5-B, the surplus amounts in excess of the \$90M capital adequacy reserve targets were returned to Member Groups. This resulted in a combined return of approximately \$57M to our Member Groups.

Beginning in FY2022 and continuing into FY2023, there was a rapid increase in claims expenses as individuals returned to their providers and also completed services that were postponed during COVID. Notably, there was a significant increase in cancer-related medical and prescription expenses, related to the COVID period. During COVID, cancer screening rates dropped significantly and it is believed that the spike in cancer claims during FY2023 was a result of cancer being detected at later, more advanced stages, which are more costly to treat. Advances in treatments, particularly specialty pharmaceuticals and CAR-T cell therapies, brought effective new treatment methods to the market, but also at a significant cost. Similarly, there were significant advances in other pharmaceutical categories, notably including GLP-1's utilized both for anti-diabetic and anti-obesity purposes, driving pharmacy trend to rapidly increase well above expected levels. Lastly, a new and growing trend of claims seasonality was experienced, leading to adverse experience in the spring season of each year, driving further volatility.

As a result of these and other factors, adverse results were experienced in FY2022 resulting in a reduction in net position to \$64.3M. This negative accelerated in FY2023. During that year, the actual claims incurred were over \$36.5M over the expected levels. These unexpected claims not only drove adverse experience for FY2023, but also indicated that the rates for FY2024 (which were already set earlier in the year) would not be sufficient. As a result of an actuarial analysis, a Premium Deficiency Reserve (PDR) was also booked in the amount of \$17.2M. These were the main factors leading FY2023 to close with a net position of \$23.7M, a reduction of \$40.5M.

## Management's Discussion and Analysis (Unaudited) (Continued)

## Introduction (Continued):

During FY2024, claims remained at elevated levels but, importantly, were closely aligned to the updated actuarial predictions. The PDR appropriately accounted for the increased claims volume and, along with the Capital Risk Charge implemented to begin rebuilding reserves, resulted in an operating gain for FY2024 in the amount of nearly \$7M. Combined with investment gains of \$3M, the overall net position for FY2024 increased \$10M from \$23.7M to \$33.7M. This is above the expectation of \$26M that was forecast by our actuaries in the Capital Adequacy Reserve rebuild plan. Additionally, the actuarial analysis completed at the end of FY2024 indicated that rates for FY2025 are sufficient to cover expected claims and that there was no need to record a PDR.

Together, these results indicate that the rating disruptions during the COVID and post-COVID periods have normalized, rates are sufficient, and the rebuild plan will continue to progress. As discussed further later in this report, HealthTrust has also taken further action to adapt to the changing industry and protect against severe adverse impacts such as the unprecedented volatility that occurred during the COVID and post-COVID periods.

These financial statements also include Center at Triangle Park Inc. (CTP). CTP's primary business is to provide office space to related entities. CTP has been excluded from management discussion and analysis.

HealthTrust's basic financial statements are comprised of four components, 1) the statement of net position, 2) the statement of revenues, expenses and changes in net position, 3) the statement of cash flows and 4) the notes to the financial statements. This report also contains required supplementary information in addition to the basic financial statements.

The financial statements contained within this report are reflective of the years ending June 30, 2024 and 2023.

#### Overview:

HealthTrust is governed by its Board of Directors and operates on a fiscal year ending June 30.

HealthTrust's mission is to provide high quality, cost-effective employee benefit products and services for public employers and employees in New Hampshire in order to reduce costs through pooling strategies with a commitment to education, health promotion and disease prevention.

HealthTrust offers employee benefit coverage lines and related services to its Member Groups (hereafter "Members"). HealthTrust operates in accordance with New Hampshire RSA 5-B. This statute and the HealthTrust Bylaws permit political subdivisions of the State of New Hampshire, and their instrumentalities, to participate in its pooled risk management program.

## Management's Discussion and Analysis (Unaudited) (Continued)

#### Overview (Continued):

HealthTrust is a New Hampshire voluntary corporation, with its income not subject to federal income taxation under Internal Revenue Code Section 115. HealthTrust believes that operating without profit seeking contributes to its ability to deliver products to public sector employers and through them to their employees at lower rates than might otherwise be obtained for comparable products within the commercial marketplace.

As part of its pooled risk management program HealthTrust offers its Members medical (including prescription drug), dental, short and long-term disability and life coverage lines. HealthTrust bears the financial risk of the coverage agreements with Members for medical, dental and short-term disability coverage. Long-term disability and life coverage is provided on a fully insured basis through a third-party insurer.

HealthTrust has administrative service contracts with Anthem Blue Cross and Blue Shield (Anthem), CaremarkPCS Health LLC (CVS Caremark), and Delta Dental Plan of New Hampshire (Delta Dental) to provide access to a comprehensive provider network and third party claims administration and related services for HealthTrust's medical and dental coverage lines.

HealthTrust works collaboratively with these vendors to provide a full range of medical and dental benefit options to meet the evolving demands of the New Hampshire public sector. Together we bring focus to public sector issues and concerns to better meet the public sector's healthcare needs.

#### Statement of Net Position:

This statement provides information about HealthTrust's assets, deferred outflows of resources, liabilities, deferred inflows of resources and net position as of June 30, 2024 and 2023. The majority of HealthTrust's assets are cash, can be converted to cash quickly, or are expected to become cash soon.

The liabilities reflect claims paid by contracted third party administrators in the audit period, but not reported to HealthTrust until after year end, amounts owed to outside companies for services within the period that were paid after year end, amounts calculated by qualified actuarial consultants as reasonable estimates for claims incurred but not yet reported to the claims administrators, premium deficiency reserves, amounts required to be returned to Members, and other accrued expenses.

Net position identifies the difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources and represents the equity interest in Center at Triangle Park, Inc. (CTP), capital assets along with unrestricted net position. HealthTrust's governing board, with advice from its consulting actuary, annually reviews the proper level of capital adequacy reserve it needs (also known as the designated total net position target level).

## Management's Discussion and Analysis (Unaudited) (Continued)

## Statement of Revenues, Expenses and Changes in Net Position:

The results of HealthTrust's operating activity are shown on this statement. This statement provides information about the level of contributions, claims, return of surplus and operating expenses for the fiscal years ending June 30, 2024 and 2023. Information about other sources of income and other expenses is provided. Lastly, this statement sets forth HealthTrust's change in net position for each year.

#### Statement of Cash Flows:

This statement reviews how HealthTrust's cash balance changed during the fiscal year. It is divided into three different areas explaining where HealthTrust generated or used cash during the year. These areas relate to HealthTrust's operations, investing activities and capital and related financing activities (sale and acquisition of capital assets). It substantiates and reconciles the increase or decrease in HealthTrust's cash position.

## Net Position and Changes in Net Position:

HealthTrust's total assets as of June 30, 2024, 2023 and 2022 are \$78.9 million, \$94.3 million and \$126.3 million, respectively. The decrease in assets as of June 30, 2024 is primarily due to more claims experience than expected, which required the liquidation of investments to ensure adequate cash and cash equivalents. The decrease in assets as of June 30, 2023 is primarily due to more claims experience than expected, which caused a decrease in cash and cash equivalents. The fair value of HealthTrust's investments in equities and fixed-maturity securities decreased by \$36.5 million during the year ended June 30, 2024 as compared to an increase of \$1.9 million during the year ended June 30, 2023, primarily due to the liquidation of equities and a portion of the fixed income securities. Due to the liquidations, cash and cash equivalents have increased \$20.1M.

HealthTrust's total liabilities as of June 30, 2024, 2023 and 2022 are \$46.0 million, \$72.9 million and \$61.2 million, respectively. The decrease in liabilities as of June 30, 2024 is primarily the result of no premium deficiency reserve, and a decrease in claims payable and claims administration reserves. The increase in liabilities as of June 30, 2023 is primarily the result of higher than projected claims activity, which resulted in the requirement of an increased premium deficiency reserve.

HealthTrust's total net position as a result of the combined effects of assets, deferred outflows of resources, liabilities and deferred inflows of resources as of June 30, 2024, June 30, 2023 and 2022 totaled \$33.8 million, \$23.7 million and \$64.3 million respectively.

## Management's Discussion and Analysis (Unaudited) (Continued)

## Net Position and Changes in Net Position (Continued):

The following table shows HealthTrust's condensed net position as of June 30:

	2024		2023		% Chg	2022		% Chg
Assets Property and equipment, net Subscription and right of use assets Investment in Center at Triangle Park, Inc.	\$	70,519,059 276,067 3,333,147 4,795,744	\$	84,693,828 98,503 4,535,254 4,960,990	(17)% 180 % (27)% (3)%		114,760,946 39,177 6,320,550 5,216,776	(26)% 151 % (28)% (5)%
Total Assets		78,924,017		94,288,575	(16)%		126,337,449	(25)%
Deferred Outflows of Resources		2,602,782		3,472,514	(25)%		711,153	388 %
<b>Liabilities</b> Subscription and lease liabilities		43,889,898 2,075,400	_	69,869,802 3,004,208	(37)% (31)%		56,831,871 4,388,594	23 % (32)%
Total Liabilities		45,965,298		72,874,010	(37)%		61,220,465	19 %
Deferred Inflows of Resources		1,806,739		1,158,272	56 %		1,560,972	(26)%
Unrestricted net position Majority interest in Center at Triangle Park, Inc. Investment in capital assets, net		27,425,204 4,795,744 1,533,814	_	17,138,268 4,960,990 1,629,549	60 % (3)% <u>(6)%</u>		57,079,256 5,216,776 1,971,133	(70)% (5)% (17)%
Total Net Position	\$	33,754,762	\$	23,728,807	42 %	\$	64,267,165	(63)%

Consistent with the Governmental Accounting Standards Board's requirements, HealthTrust reflects net position in three categories: restricted, unrestricted and invested in capital assets. The amount of capital assets held, reflects the Organization's majority interest in Center at Triangle Park, Inc. (CTP) and the amount invested in property, equipment (equipment, computer software, hardware, furniture, etc.) and subscription and lease right of use assets, net of accumulated depreciation and amortization and related capital obligations. The amount in unrestricted net position reflects all other categories of net position, including the net unrealized gain/(loss) on marking investments to fair value. As described in Note 4 of the audited financial statements, these amounts are segregated into several categories as recognized by the HealthTrust Board of Directors. The categories include amounts for designated total net position target to protect HealthTrust's Members from unanticipated events such as larger than expected claims volume, unexpected decline in the value of invested funds, or other similar unforeseen events.

#### Liabilities:

Liabilities totaled \$46.0 million at June 30, 2024, as compared to \$72.9 million at June 30, 2023 and \$61.2 million at June 30, 2022. Liabilities at June 30, 2024 are primarily comprised of claim and claim administration reserves and claims payable totaling \$35.7 million, accounts payable and accrued expenses, unearned contributions, lease and subscription liabilities totaling \$7.6 million, and a net pension liability of \$2.6 million. The change in liabilities is primarily related to a decrease in premium deficiency reserve of \$17.2 million, a decrease in claims payable and claims reserves of \$8.5 million, as well as a \$2.6 million decrease in pension liability and subscription liability, offset by increases in unearned contributions of \$1.5 million.

## Management's Discussion and Analysis (Unaudited) (Continued)

## Liabilities (Continued):

In accordance with GASB Statement No. 30, "Risk Financing Omnibus," premium deficiencies are required to be calculated and reported by public entity risk pools. As GASB is not specific to healthcare entities, in establishing a premium deficiency reserve, HealthTrust also looks to generally accepted accounting principles issued by the Financial Accounting Standards Board (FASB) as well as applicable National Association of Insurance Commissioners (NAIC) relative to prepaid health care services contracts. Such guidance provides premium deficiency reserve guidance specific to health insurance entities, and has been used by HealthTrust to clarify and supplement GASB GAAP guidance issued within GASB Statement No. 30 which is specific to property liability insurance coverage. A premium deficiency can result when expected costs for coverage obligations as of the financial statement date exceed expected contributions (based on rates set prior to the financial statement date) for such coverage. As further described in Note 6, HealthTrust recorded a premium deficiency reserve of \$0.0 million as of June 30, 2024 as compared to \$17.2 million as of June 30, 2023. HealthTrust recorded a premium deficiency reserve of \$8.7 million as of June 30, 2022.

## **Operating Results:**

HealthTrust's operating results for the years ended June 30, 2024, 2023 and 2022 totaled \$7.0 million, \$(43.9) million, and \$(19.4) million, respectively. Including non-operating revenues and expenses and majority interest in the Center at Triangle Park, Inc., net position during FY2024, FY2023 and FY2022 increased by \$10.0 million, decreased by \$(40.5) million, and \$(25.7) million, respectively. The operating results are impacted by claims experience as compared to estimates made during the rating process, the premium deficiency expense and return of surplus. The changes in net position from non-operating revenues are due to investment income and changes in the fair value of investments resulting from market fluctuations.

After finalizing the results for each year end, the governing board reviews the total net position to identify the amount above the designated total net position target to be returned to participating Member Groups. There was no return of surplus for the years ended June 30, 2024 and 2023.

## Management's Discussion and Analysis (Unaudited) (Continued)

## Operating Results (Continued):

The following table summarizes HealthTrust's operations, as shown in the Statement of Revenues, Expenses and Changes in Net Position, for the years ended June 30:

	2024	2023	% Chg	2022	% Chg
Operating Revenues					
Contributions earned from Member					
Groups	\$487,027,148	\$465,359,371	5 %	\$452,421,516	3 %

Triangle Park, Inc.	(54,179)	(57,835)	(6)%	(138,238)	58 %
Change in net position	10,025,955	(40,538,358)	(125)%	(25,728,656)	(58)%
Net position, beginning of year	23,728,807	64,267,165	(63)%	90,000,000	(29)%
GASB 87 adoption			100 %	(4,179)	100 %
Net position, end of year	\$ 33,754,762	\$ 23,728,807	42 %	\$ 64,267,165	(63)%

## **Operating Revenues:**

Net operating revenues for FY2024, FY2023 and FY2022 totaled \$498.5 million, \$470.4 million and \$456.0 million, respectively. FY2024 net operating revenues increased by 6.0% primarily due to rate increases and enrollment changes. FY2023 net operating revenues also increased 3.2% due to rate increases and enrollment changes.

## Management's Discussion and Analysis (Unaudited) (Continued)

## Operating Revenues (Continued):

Operating revenues are primarily comprised of contributions earned from participating Members. The cash provided by operating activities is detailed in the Statements of Cash Flows.

## Operating Expenses:

Total operating expenses for FY2024, FY2023 and FY2022 totaled \$491.4 million, \$514.4 million and \$475.4 million, respectively. FY2024 operating expenses decreased \$(22.9) million over the prior year primarily as a result of \$25.6 million decrease of premium deficiency expense combined with a decrease in claims reserves of \$6.9 million offset by increased claims of \$3.5 million and an increase of \$5.9 million in Ancillary Services FSA claims from prior year. FY2023 operating expenses increased \$38.9 million over the prior year primarily as a result of an increase of \$37.3 million in claims incurred. Additional impacts include a \$1.3 million increase from ancillary services program changes, an increase in depreciation/amortization expense of \$1 million, and an increase in claims administration of \$0.7 million.

FY2024 operating expenses primarily include claims and provider payments incurred totaling \$464.5 million, claims administration fees totaling \$29.1 million, general and administrative expenses totaling \$15.0 million, and the premium deficiency reserve of \$(17.2) million.

Operating expenses as a percentage of contributions earned from Members are as follows for the years ended June 30:

	2024	2023	2022
Claims incurred	94.8 %	100.0 %	94.6 %
Anthem EPHC provider payments	0.6 %	0.5 %	0.5 %
Premium deficiency expense (gain)	(3.5)%	1.8 %	1.9 %
Return of surplus	- %	- %	- %
Administrative fees paid	6.0 %	4.8 %	4.8 %
Administrative expenses	3.0 %	3.3 %	3.1 %

#### Cash Flows:

Cash and cash equivalents increased by \$20.0 million for FY2024 as a result of liquidations from our equities and fixed income portfolios, as seen on the Statement of Cash Flows. HealthTrust has several policies to ensure its cash flow needs are met. These policies address the level of cash:

- To be maintained in interest-bearing accounts
- To be allocated to cash and investments

HealthTrust maintained sufficient cash and investments to meet these policies for the period ending June 30, 2024. All cash is maintained in interest bearing, collateralized accounts at all times. At June 30, 2024 HealthTrust had approximately 25 days of cash on hand as compared to 10 days of cash on hand at June 30, 2023 and 35 days of cash on hand at June 30, 2022. HealthTrust continuously monitors the level of cash on hand to ensure compliance with HealthTrust policies and allow ample time to liquidate investments and meet obligations should the need arise.

## Management's Discussion and Analysis (Unaudited) (Continued)

## Cash Flows (Continued):

The duration of the portfolio, as calculated by the investment managers, was 3.90 years at June 30, 2024 as compared to 4.50 years at June 30, 2023, and 4.41 years at June 30, 2022.

## Changes in Member Groups and Covered Enrollees:

HealthTrust closely watches changes in the number of Member Groups and the number of covered Enrollees, both in total and by benefit option. These indicators are important factors in administering the coverage lines, and could potentially affect claim volume. Significant shifts in the benefit options selected at the Member and Enrollee level can impact claims projections and future trend development. An increase in the number of covered Enrollees could create more participation in HealthTrust's *Slice of Life* wellness program, resulting in additional incentive dollars being paid as well as the need for additional capacity to service the expanded Enrollee base.

As of June 30, 2024, HealthTrust covered 78,042 unique covered persons participating in at least one of the following coverage lines: medical, dental, short-term disability, long-term disability, and life insurance. These covered persons represent Employees, Retirees, Spouses, and Dependents. HealthTrust continues to see enrollment shifts to lower cost benefit options that have increased copayments and deductibles. While the current HMO plans have the largest number of Enrollees at 10,942, the Site-of-Service benefit options have continued to see significant growth and now have over 7,783 Enrollees. It is anticipated that this will continue to grow over the next few years. Enrollment for Medicare-eligible Retirees is currently 7,068.

Enrollment in the Consumer Driven Health Plan (CDHP) remains small at 1,211 Enrollees, but it is an important part of the benefit options provided to Member Groups as they look for alternatives to meet the changing needs of their Employees. Dental and long-term disability enrollment remain fairly consistent over time, short-term disability and life insurance enrollment have grown over the same period from 2022 to 2024.

The number of covered individuals by coverage line is as follows:

	2024	2023	2022	2021
Medical	52,669	53,036	52,861	53,502
Dental	59,475	58,755	56,919	56,147
Life	11,135	10,137	9,525	9,497
Short-term disability	4,694	4,357	4,022	3,911
Long-term disability	7,206	6,218	5,962	5,943

## Management's Discussion and Analysis (Unaudited) (Continued)

## **Participation:**

HealthTrust contracts with Members for coverage and the associated contribution rates on an annual basis for the upcoming coverage year. HealthTrust Bylaws provide that a Member may withdraw from coverage at any time, as long as proper notice is given as outlined in the HealthTrust Bylaws. HealthTrust does not maintain any multi-year contracts with its Members. However, Members generally maintain coverage for a full annual cycle, making any changes on their plan's renewal date, which is either on January 1 or July 1. If a Member withdraws from HealthTrust's medical coverage, they are required to wait two years before becoming eligible to rejoin the medical coverage line in order to protect the pool from adverse impacts.

#### Market Share:

HealthTrust operates in a marketplace where there is targeted competition from other pooled risk management programs as well as private insurers, typically working through insurance brokers. HealthTrust estimates, that as of June 30, 2024, HealthTrust Member Groups participating in its medical coverage line represent approximately 71% of the total eligible number of groups in the New Hampshire public sector marketplace for medical coverage. HealthTrust offers annual renewals for current Members and proposals for eligible groups seeking new coverage. Due to the competitive environment, HealthTrust expects to see some movement of eligible groups between public sector risk pool entities on a regular basis.

#### Rating:

HealthTrust retains a recognized actuarial firm for advice regarding the anticipated revenue needed for its self-insured lines at each renewal and the resulting rates to be established for such coverage lines at each renewal. The rating process is designed to raise only the amount of revenue necessary to meet HealthTrust's needs for payment of claims, administration (including health management expenses) and actuarially determined adequate reserves. As with any actuarial prediction, there is a degree of uncertainty as to whether a particular rating will be sufficient in any one year to meet all of the needs of HealthTrust for that year. When such events occur such as experienced in FY2022 and FY2023, HealthTrust raises additional revenues by including a capital risk charge in subsequent rating periods. Correspondingly, there exists in the rating process the possibility that rates established in any year will produce higher revenue than is needed. As experienced in FY2020 and FY2021, at the end of fiscal years when the established rates produce higher revenue than is needed, HealthTrust returns the surplus to Members. Based on its long experience, HealthTrust believes there is a high degree of likelihood that the rates established over time, the revenue raised and the funded reserves will be adequate to meet HealthTrust's obligations to its Members and their Employees, Retirees and Dependents.

## Management's Discussion and Analysis (Unaudited) (Continued)

#### Outlook:

Ensuring covered Employees, Retirees and Dependents receive cost-effective and high quality health care is the constant focus of HealthTrust and its Board of Directors. HealthTrust also provides Members tools to improve the total well-being of their Employees, Retirees and Dependents including robust well-being programs. Many Members also take advantage of dental, disability and life coverages. Additionally, many Members participate in the administrative services that HealthTrust offers such as Flexible Spending Account and Health Reimbursement Account administration, and COBRA and Retiree billing services. We believe that the access to the high quality health care coverage and well-being programs have a significant downward pressure on long-term claims trends, helping to improve population health and reduce overall claims costs. Together with the exceptional service delivered by our staff, HealthTrust offers significant value in the New Hampshire public sector employee benefits marketplace.

HealthTrust's Mission, Vision and Values form the foundation of all we do. We are proud to be New Hampshire communities' most-trusted partner in achieving optimum health through a culture of wellness. We collaborate with our Members to share resources, new ideas, best practices, and problem-solving strategies. This synergistic partnership enables HealthTrust to provide proactive, forward-focused, comprehensive coverage plans, programs and services, while containing costs for Members and their covered individuals.

The following are a few of the recent initiatives undertaken by HealthTrust to ensure it continues to provide high quality, cost-effective coverage to meet the unique needs of New Hampshire's public sector employers and employees.

Through partnerships with Anthem and CVS Caremark, HealthTrust offers medical plan options that balance accessibility, personal choice, and affordability through a broad provider network and collaborative partnerships.

HealthTrust regularly reviews its medical coverage portfolio to ensure plan options best meet the needs of Members and Enrollees.

During FY2024, HealthTrust has worked diligently and collaboratively with Anthem, our Members, and our Covered Individuals on the implementation of the Medicare Advantage with Prescription Drug (MAPD) plan. Launching on January 1, 2025 as a replacement to our existing Medicomp with Prescription Drugs supplemental plan, the MAPD plan will on average result in nearly a 50% premium savings for covered retirees. This plan capitalizes on improvements made to Medicare Advantage plans as a result of the Inflation Reduction Act of 2022 and the savings has been achieved while preserving a robust benefit design and extremely broad provider access. Throughout the spring and summer, HealthTrust has been educating retirees on the new coverage and has received an overwhelmingly positive response.

## Management's Discussion and Analysis (Unaudited) (Continued)

#### Outlook (Continued):

Additionally, HealthTrust is preparing for the retirement date of its BlueChoice medical coverages, which will no longer be offered as of June 30, 2025. The retirement of this antiquated plan design in favor of new, next-generation plans (such as the recently introduced Open Access plan) will result in better performance, coverage, and savings for our Members and Covered Individuals.

As noted above, HealthTrust partners with CVS Caremark, a pharmacy benefit manager (PBM), for prescription drug coverage. As a PBM, CVS Caremark leverages guaranteed volumes when negotiating with drug manufacturers to secure the most favorable pricing and also negotiates rebates to lower drug prices. CVS Caremark maintains its own network of pharmacies including retail, mail-order and specialty and provides drug utilization and management. HealthTrust has completed a Market Check with CVS Caremark, resulting in additional savings as of July 1, 2024.

As a result of the unprecedented volatility experienced during COVID and post-COVID period, HealthTrust implemented important changes that will better serve Member Groups and Covered Individuals during this industry evolution. Important changes include the following:

HealthTrust will being issuing final medical rates to July renewal Members in October of each year. This methodology will replace the existing process of issuing Guaranteed Maximum Rates (GMR) in the fall and Revisit rates in the spring. As public sector entities are subject to various requirements for raising, retaining, and utilizing funds, it is critical that Groups are presented with medical rates in the fall so that they meet required deadlines for their budget preparation process. Employee benefits are typically the second largest budget line item for public sector entities (behind salaries) and therefore it is critical that they have firm information to rely upon. The GMR process attempted to meet this need. However, in recent years, the Revisit rating indicated a significant cost to honor GMR that needed to either 1) be assessed to well-performing Groups or 2) have a negative effect on expected net position if rating assumptions held true. Issuing final rates in October addresses both challenges.

Deductible funding limitations are being expanded to all HealthTrust medical plans, prohibiting more than 50% of the medical deductible being funded by employer contributions. This applies to all Member Groups (except fully credible Groups over 1,000 Enrollees) and includes all funding types such as Health Reimbursement Arrangements (HRAs) and Health Savings Accounts (HSAs). This change was made as medical plans that include a deductible count on consumer behavior changes as a result of this plan design, such as an individual choosing to go to a low-cost laboratory rather than a high-cost laboratory. When deductibles are significantly funded by the employer, consumerism does not occur to the expected level which drives adverse experience. By implementing this limit, which is in-line with industry standards, plans will operate as designed, thereby preserving them as lower-cost options, in line with their intended use.

## Management's Discussion and Analysis (Unaudited) (Continued)

## Outlook (Continued):

The Board also recently took action to exclude coverage for Anti-Obesity Medications (AOMs), including GLP-1s. This action will be effective as of March 1, 2025 for plans with CVS Caremark prescription coverage, and will remain an exclusion for plans with Anthem Carelon Rx prescription coverage. This action is in-line with many public sector plans and steps others in the industry are taking in response to the monumental rise of cost in this category as well as questions about the efficacy and safety of long-term usage. Over the last several years, the meteoric increase in costs in this category has caused Wegovy to become HealthTrust's top drug by spend (over \$4M alone) and, as a category, driving a significant portion of overall medical and prescription plan claims expenses.

Other action also taken by the Board includes adjusting the Capital Adequacy Reserve (CAR) target and the methodology for estimating high-cost claims. These changes help ensure that proper funds will be on hand to protect against unexpected significant increases in claims, as was experienced post-COVID.

The CAR target adopted by the Board as of June 30, 2024 is \$122.5M, up from \$90M in the prior year. This target was adopted based on actuarial recommendations after the experience of recent years has shown HealthTrust is unable to recover losses within one renewal cycle (pricing flexibility), a key determinant of required reserve levels, which has a significant adverse impact when losses are experienced in subsequent years. The updated target level ensures that funds will be sufficient to cover claims when multi-year rebuild plans may be required.

The change to the high-cost claims methodology in the upcoming rating cycle ensures that, in years when there is a consistent upward trend in high-cost claims (such as has been experienced over the last several years), sufficient funds are collected. Previously utilized mechanisms that average high-cost claims experience are more accurate during years of normal up-and-down fluctuations but are not effective in periods of consistently significant increasing trends. HealthTrust is also continuing to evaluate the reinsurance market to identify what, if any, additional opportunities may be available to further protect against extraordinary volatility.

Every decision or program implemented by the Board is rooted in HealthTrust's mission. The Board is committed to meeting Member needs and facilitating the optimal health of their Covered Individuals. The Board remains dedicated to continuously reviewing recent performance and industry trends ensure that the specific needs of the New Hampshire public sector are met.

## Notes to the Financial Statements

Years ended June 30, 2024 and 2023

## **Note 1 - Organization and Nature of Operations**

HealthTrust, Inc. (HealthTrust), a New Hampshire voluntary corporation, was formed to provide employee benefits coverage to political subdivisions of the State of New Hampshire. In accordance with HealthTrust By-Laws, all political subdivisions of the State of New Hampshire and their instrumentalities are eligible to participate. The HealthTrust Board of Directors (Board of Directors) governs HealthTrust. HealthTrust serves as an association of local governments voluntarily joining together to finance their exposure for healthcare and other applicable coverage benefit costs provided to their employees and is funded by its Members. HealthTrust covered the following separate individuals among all coverage lines as of June 30:

	2024	2023
Medical	52,669	53,036
Dental	59,475	58,755
Life	11,135	10,137
Short-term disability	4,694	4,357
Long-term disability	7,206	6,218

HealthTrust's mission is to provide high quality, cost-effective employee benefits products and services for public employers and employees in New Hampshire in order to reduce costs through pooling strategies with a commitment to education, health promotion and disease prevention. HealthTrust's underwriting and rate setting policies have been established after consultation with actuaries.

Center at Triangle Park, Inc. (CTP) was formed as a voluntary corporation and a 501(c)(25) entity for the purpose of acquiring and holding title to real estate. As of June 30, 2024 and 2023, HealthTrust owns 98.8% of outstanding CTP shares and New Hampshire Municipal Association, Inc. (NHMA) owns 1.2%. CTP leases the real estate to HealthTrust, NHMA and third parties. In accordance with the standards set by the Governmental Accounting Standards Board (GASB), Statement No. 90, *Majority Equity Interest*, the Company has evaluated its majority interest in CTP, and determined that this does not meet the GASB definition of an investment. As such, the assets and all activity of CTP are included in these financial statements as a discretely presented component unit. HealthTrust's interest in CTP is recognized under the equity method of accounting, whereby the gain or loss in the operations of CTP is recognized in proportion to the ownership shares and the investment in CTP is adjusted to recognize the associated gain or loss, net of any distributions from CTP.

## Notes to the Financial Statements (Continued)

## **Note 2 - Summary of Significant Accounting Policies**

#### Basis of Presentation

The accompanying financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) as applied to proprietary funds of governmental units. The Governmental Accounting Standards Board (GASB) is the authoritative standard-setting body for the establishment of governmental accounting and financial reporting principles. HealthTrust's and CTP's financial statements are presented using the economic resources measurement focus and the accrual basis of accounting.

CTP is primarily an internal service fund providing office space to related entities on a cost reimbursement basis. Given HealthTrust's 98.8% ownership interest in CTP, along with its intent that owning CTP enhances its abilities to provide services to Members, the financial statements of CTP have been included as a component unit to maximize transparency.

## Use of Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets, deferred inflows and outflows of resources, and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from those estimates.

#### Risks and Uncertainties

In March 2020, the World Health Organization declared a pandemic related to the rapidly spreading coronavirus (COVID-19) outbreak, which has led to a global health emergency. Through June 30, 2020, HealthTrust experienced a dramatic decline in claims activity as a result of the pandemic, suggesting Members were deferring care, which may be related to the recent increases noted in high dollar claims. As of and through June 30, 2024 and 2023, the continuing impact on claims is still uncertain.

HealthTrust invests in various securities as part of its ongoing operations and is exposed to economic and financial market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities may occur in the near term and those changes could materially affect the amounts reported on the statements of net position.

## Subsequent Events

HealthTrust has evaluated subsequent events for disclosure and recognition through October 23, 2024, the date these financial statements were available to be issued.

#### Cash Equivalents

Cash equivalents consist of money market funds and all highly liquid investments with original maturities of three months or less.

## Notes to the Financial Statements (Continued)

## Note 2 - Summary of Significant Accounting Policies (Continued)

#### Investments

HealthTrust's investments consist of fixed-maturity securities detailed in Note 5. As of June 30, 2023, HealthTrust also invested in mutual and exchange-traded funds (ETFs). Investments are stated at fair value based upon quoted market prices or through a recognized pricing service.

HealthTrust accounts for its investments in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools* (Statement No. 31). Statement No. 31 establishes fair value standards on accounting for all investments held by governmental external investment pools and governmental entities. All investment income, including changes in the fair value of investments, is recognized in the statements of revenues, expenses and changes in net position. The calculation of realized gains and losses is independent of the calculation of the net change in the fair value of investments. Realized gains and losses on investments that had been held in more than one fiscal year and sold during the current year were included as a change in the fair value of investments reported in the prior years and the current year. Realized gains and losses on the sale of investments are recognized using the specific ID method for fixed-maturity securities and average cost for mutual and exchange traded funds to determine the costs of the investments sold. Investment purchases are recognized on the trade date.

HealthTrust's estimates of fair value for financial assets are based on the framework established in GASB Statement No. 72, *Fair Value Measurement and Application*. The framework is based on the inputs used in valuation and requires that observable inputs be used in the valuations when available. The disclosure of fair value estimates in the fair value accounting guidance includes a hierarchy based on whether significant valuation inputs are observable. In determining the level of the hierarchy in which the estimate is disclosed, the highest priority is given to unadjusted quoted prices in active markets and the lowest priority to unobservable inputs that reflect the HealthTrust's significant market assumptions.

If the inputs used to measure the assets fall within different levels of the hierarchy, the classification is based on the lowest level of input that is significant to the fair value measurement of the asset. Classification of assets within the hierarchy considers the markets in which the assets are traded and the reliability and transparency of the assumptions used to determine fair value. The hierarchy requires the use of observable market data when available. The levels of the hierarchy and those investments included in each are as follows:

• Level 1 – Inputs to the valuation methodology are quoted prices for identical assets traded in active markets.

## Notes to the Financial Statements (Continued)

## Note 2 - Summary of Significant Accounting Policies (Continued)

- Level 2 Inputs to the valuation methodology include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the asset and market corroborated inputs.
- Level 3 Valuations based on models where significant inputs are not observable. The unobservable inputs reflect HealthTrust's own assumptions about the inputs that market participants would use.

Fair values are based on quoted market prices when available (Level 1). HealthTrust receives the quoted market prices from a third party, nationally recognized pricing service. When market prices are not available, HealthTrust utilizes a pricing service to determine an estimate of fair value. The fair value is generally estimated using current market inputs for similar financial instruments with comparable terms and credit quality, commonly referred to as matrix pricing (Level 2). These valuation techniques involve some level of management estimation and judgment.

In accordance with GASB Statement No. 40, *Deposit and Investment Risk Disclosures - an amendment of GASB Statement No. 3*, certain disclosures regarding deposit and investment risks have been provided in Note 5.

## Contributions from Member Groups

Contributions from Members participating in HealthTrust's coverage lines are generally recognized as revenue on a monthly basis over the participation contract term. The portion of the contributions received in cash that will be earned in the future is deferred and reported as unearned contributions on the statements of net position. Contributions receivable consist primarily of contributions billed to Member Groups for the current contract term that have not been collected. Contributions receivable are stated at the amount management expects to collect from outstanding balances. Management considers all contributions receivable to be collectible as of June 30, 2024 and 2023, therefore, an allowance for doubtful accounts has not been provided.

#### Prescription Administration and Rebates

HealthTrust receives prescription rebates related to the use of prescription drugs. HealthTrust's agreement with CVS Caremark utilizes a point-of-sale prescription rebate methodology. Point-of-sale prescription rebates are applied against prescription costs at the point of sale and as such are applied directly against claims incurred on the statements of revenues, expenses and changes in net position.

## Notes to the Financial Statements (Continued)

## **Note 2 - Summary of Significant Accounting Policies (Continued)**

Prescription rebates due to/from HealthTrust's service providers are included within claims payable on the statements of net position. As of June 30, 2024 and 2023, rebates receivable of \$10,892,871 and \$6,495,050 were netted against claims payable. Management considers all prescription rebates receivable to be collectible as of June 30, 2024 and 2023, therefore, no allowance for doubtful accounts was provided.

## Property and Equipment, Net

Property and equipment with an estimated useful life greater than one year is capitalized at cost. The cost of maintenance and repairs is charged to expense as incurred, while renewals, replacement of existing systems and betterments are capitalized. Upon the sale or other disposition of assets, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is reflected in operating loss.

Land is not depreciated. Other property and equipment is depreciated or amortized using primarily the straight-line method over the following useful lives:

	Estimated Useful
	Life (Years)
Land improvements	15
Buildings and building improvements	31 - 40
Office equipment, computers and other equipment	3 - 5
Furniture and fixtures	3 - 5

#### Lease Activities

CTP leases office space to HealthTrust and other entities pursuant to lease agreements. At the commencement of a new lease in excess of twelve months, CTP recognizes a lease receivable equal to the present value of expected future lease payments over the lease term and a deferred inflow of resources equal to the unearned portion of the lease receivable, plus any lease prepayments received. CTP recognizes rental income on a straight line basis over the remaining lease term. Leases twelve months or less are recognized as rental income on a straight line basis over the lease term.

## Notes to the Financial Statements (Continued)

## Note 2 - Summary of Significant Accounting Policies (Continued)

HealthTrust determines if an arrangement is a lease or contains a lease at the inception of each contract. A contract is determined to be or contain a lease if the contract conveys the right to control the use of identified asset in exchange for consideration. HealthTrust's lease agreements do not contain any material residual value guarantees or material restrictive covenants. HealthTrust recognizes a right of use asset and lease liability for contracts determined to be a lease. At each lease inception, a lease liability is recognized and measured at the present value of the lease payments over the lease term and a right of use assets is recognized equal to the lease liability adjusted for any initial direct costs, prepaid or deferred rent, and lease incentives. HealthTrust uses the implicit rate when readily determinable, such as for equipment leases. HealthTrust uses its incremental borrowing rate to measure leases for office space. Incremental borrowing rates used to determine the present value of lease payments were derived by reference to quoted rates HealthTrust would receive to finance each lease transaction or needed to borrow the amount of the undiscounted future payments over the term of the lease. The lease term may include options to extend or to terminate the lease that HealthTrust and the lessor are reasonably certain to exercise. Lease expense is generally recognized on a straight-line basis over the lease term.

## Subscription Asset / Liability

Subscription-based information technology arrangements (SBITA) is defined as a contract that conveys control of the right to use another party's information technology (IT) software as specified in the contract for a period of time in an exchange or exchange-like transaction. The SBITA is recorded to recognize the following: 1) a subscription liability, which is the entities obligation to make future payments arising from the SBITA, measured on a discounted basis; and 2) a subscription asset, which is an intangible asset representing the entities right to use the system over the term of the SBITA. The subscription asset is amortized over the useful life of the underlying IT asset.

## Classification of Revenues and Expenses

HealthTrust's statements of revenues, expenses and changes in net position distinguish between operating and non-operating revenues and expenses. Operating revenues primarily result from contributions earned from participating Member Groups to cover estimated benefits obligations and administrative costs, and increases needed to maintain the actuarially-determined capital reserve levels. HealthTrust's operating revenues also include Ancillary Services and COBRA revenue, which consist of administration fees charged for Members who elect to have HealthTrust administer their flexible spending accounts, life insurance programs, long-term disability programs and COBRA billing. Prescription administration and rebates revenue and support services income from providing administrative and business support services to other entities, as more fully described in Note 9, are also included in HealthTrust's operating revenues. Operating expenses primarily consist of expenses incurred to provide underwriting and claims payment services, administrative expenses and depreciation of property and equipment. Other revenues and expenses, including interest income and changes in the fair value of HealthTrust's investments, are classified as non-operating on the statements of revenues, expenses and changes in net position.

## Notes to the Financial Statements (Continued)

## Note 2 - Summary of Significant Accounting Policies (Continued)

CTP's statements of revenues, expenses and changes in net position distinguish between operating and non-operating revenues and expenses. Operating revenues primarily result from rental of property, CTP's principal activity. Operating expenses are all expenses incurred in rental operations. Interest income is reported as non-operating revenue.

#### Claims and Administration Reserves

HealthTrust establishes claims and claims administration reserves based on estimates of the ultimate cost of claims that have been reported, but not settled, and of claims that have been incurred, but not reported. The length of time for which such costs must be estimated varies depending on the coverage involved. Claims reserves are recomputed periodically using a variety of actuarial and statistical techniques to produce current estimates that reflect recent claim costs, claim frequency, and other economic and societal factors. Adjustments to claims reserves are charged or credited as an expense in the periods in which they are made. HealthTrust's third-party claims administrative service agreements for medical and dental coverage include a provision for two months of administrative service fees to be paid for run-out services in the event the agreements are terminated. As such, HealthTrust has accrued for this contractual obligation as a component of the claims and administrative reserves.

HealthTrust utilizes an independent consulting actuary to estimate claims and claims administration reserves for health, dental and short-term disability coverages.

## Income Taxes

HealthTrust and CTP are exempt from federal and New Hampshire state income taxes under provisions of the Internal Revenue Code and New Hampshire state law.

## Note 3 - Cash and Cash Equivalents

HealthTrust and CTP maintain cash and cash equivalents in bank deposits and cash management accounts that are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000 per financial institution, as well as in money market funds which are not FDIC insured. As of June 30, 2024 and 2023, HealthTrust's total bank balance of cash held in excess of FDIC limit or not FDIC insured was approximately \$33.3 million and \$13.2 million, respectively. As of June 30, 2024 and 2023, CTP's total bank balance of cash held in excess of the FDIC limit was approximately \$256,000 and \$309,000, respectively. The balances in excess of the FDIC limit are collateralized with securities held in joint custody with a third party custodian.

## Notes to the Financial Statements (Continued)

#### Note 4 - Net Position

Total net position is available to fund HealthTrust's designated total net position target with the remaining balance to be returned to Member Groups as surplus. HealthTrust's total net position includes the following at June 30:

	2024			2023		
Board-designated total net position target Deficiency from Board-designated target	\$	122,500,000 (88,745,238)	-	90,000,000 (66,271,193)		
Total net position prior to return of surplus	<u>\$</u>	33,754,762	\$	23,728,807		

The Board of Directors relies upon the opinion of a qualified independent consulting actuary, Milliman, who is a member of the American Academy of Actuaries and qualified in the area of health coverage, using an actuarially sound methodology to determine the required capital adequacy reserve for HealthTrust to ensure that all obligations for the payment of claims and expenses can be met.

Milliman recommended that HealthTrust should target a required capital adequacy reserve of between \$95 million to \$150 million, and between \$90 million to \$150 million, as of June 30, 2024 and 2023, respectively. Milliman advised the Board of Directors that the lower end of the range is appropriate if HealthTrust has pricing flexibility and the upper range is appropriate if HealthTrust does not have pricing flexibility.

Based on the Milliman recommendation, the HealthTrust Board of Directors set HealthTrust's capital adequacy reserve target at \$122.5 million and \$90 million as of June 30, 2024 and 2023, respectively.

There is always the risk of unpredictable claim fluctuations beyond expected levels. The following are some reasons why claims might exceed expected levels: (1) medical trend or prescription costs are significantly higher than expected; (2) a small number of very large randomly occurring claims; (3) influx of new participants that are not as healthy as average existing participants; (4) departure of participants that are healthier than average; (5) federal/state legislation that results in higher costs; and (6) new technologies/treatments such as high cost drugs and advanced imaging techniques. In order to protect HealthTrust's Member Groups and their covered employees and dependents from these potential unexpected costs, HealthTrust designates a certain level of net position, which it identifies as the capital adequacy reserve target, to ensure the availability of sufficient capital to cover these risks.

## Notes to the Financial Statements (Continued)

## Note 4 - Net Position (Continued)

The portion of HealthTrust's net position invested in capital assets consists of the following at June 30:

	2024	 2023
Investment in property and equipment and other capitalized		
assets, net of accumulated depreciation and lease and		
subscription obligations	\$ 1,533,814	\$ 1,629,549
Majority interest in CTP	 4,795,744	4,960,990
Total investment in capital assets, net	\$ 6,329,558	\$ 6,590,539

As of June 30, 2024 and 2023, CTP's investment in capital assets represents the amount of assets which have been invested in property and equipment, intangible right of use lease and subscription assets and capitalized system implementation costs, net of accumulated depreciation and related obligations.

#### Note 5 - Investments

During the years ended June 30, 2024 and 2023, HealthTrust realized net gains on sales of investments of \$7,798,720 and \$3,572,551, respectively.

## General Investment Risks and Uncertainties

HealthTrust invests in various investments. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and such changes could materially affect the amounts reported in the financial statements.

CTP maintains commercial insurance coverage for its buildings and improvements. Coverage limits are set at replacement values with customary levels of deductibles.

## Concentration of Credit Risk

Concentration risk is the risk of loss attributable to the magnitude of an investment in a single issuer. HealthTrust addresses this risk by limiting single-issuer investments to 5% of total investments (with the exception of U.S. Government obligations and mutual and exchange-traded funds, which have no limit). There are no single investments that exceed that limit as of June 30, 2024 and 2023.

## Notes to the Financial Statements (Continued)

## Note 5 - Investments (Continued)

#### Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. HealthTrust mitigates the risk that the market value of securities will fall due to changes in general interest rates by structuring the portfolio so that securities mature to meet the cash requirements for ongoing operations, thus avoiding the need to sell securities on the open market prior to maturity. The matching of investments to expected cash is not applied to the required capital adequacy reserve, as consistent with the purpose of that reserve, it is needed to cover unexpected events at some unknown future date.

The following table provides a summary of the fair value of HealthTrust's fixed-maturity securities by contractual maturity as of June 30, 2024. Fixed-maturity securities include U.S. Treasury securities, corporate bonds, municipal bonds, commercial mortgage backed securities (CMBS), asset backed securities and government enterprise sponsored MBS (GSE MBS). Mortgage and asset backed securities are categorized based upon their contractual maturities. Expected maturities may differ from contractual maturities because certain borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

	Due in one year or less	Due after one year through five years		_	oue after five ears through ten years		Due after ten years		Total
U.S. Treasuries	\$ 322,766	\$	3,515,430	\$	-	\$	-	\$	3,838,196
Corporate bonds	1,344,081		2,054,744		1,510,389		389,182		5,298,396
Municipal bonds	-		243,967		31,815		2,313,099		2,588,881
CMBS	-		781,725		-		836,045		1,617,770

## Notes to the Financial Statements (Continued)

## Note 5 - Investments (Continued)

The following were the effective durations of fixed-maturity security investments held by HealthTrust as of June 30, 2024:

		Effective
	Fair Value	Duration
U.S. Treasuries	\$ 3,838,196	1.27
Corporate bonds	5,298,396	3.64
Municipal bonds	2,588,881	10.14
CMBS	1,617,770	1.38
Asset backed	2,751,513	0.74
GSE MBS	9,400,384	4.77
Total	\$ 25,495,140	

The effective duration of the fixed-maturity securities portfolio, as calculated by HealthTrust's investment manager, is 3.90 and 4.50 years at June 30, 2024 and 2023, respectively.

#### Custodial Credit Risk

Custodial credit risk is the risk that, in the event of failure of the counterparty, HealthTrust will not be able to recover the value of its investments that are in the possession of the outside party. As of June 30, 2024 and 2023, HealthTrust did not have any investments subject to custodial credit risk.

#### Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Credit risk is measured by an assigned rating from a nationally recognized credit rating agency such as Standard and Poor's or Fitch's Rating Services. These organizations look at a number of factors in order to evaluate the credit risk of an obligation and rate the risk. This rating allows investors to make informed buying and selling decisions. HealthTrust's investment policy mitigates credit risk by limiting investments to investment-grade securities and diversifying the portfolio.

## Notes to the Financial Statements (Continued)

## Note 5 - Investments (Continued)

The table below outlines the credit ratings of HealthTrust's fixed-maturity securities as of June 30, 2024:

	_	U.S. <u>Freasuries</u>		GSE MBS	_	Corporate Bonds		•		Municipal <u>Bonds</u>		CMBS		sset Backed	Total

Total mutual funds and ETFs	\$ 13,735,076	\$ -	\$ _	\$	13,735,076

#### Note 6 - Premium Deficiency

In accordance with GASB Statement No. 30, Risk Financing Omnibus, premium deficiencies are required to be calculated and reported by public entity risk pools. A premium deficiency can result when expected costs for coverage obligations as of the financial statement date exceed expected contributions (based on rates set prior to the financial statement date) for such coverage. In establishing a premium deficiency reserve HealthTrust also considers generally accepted accounting principles issued by the Financial Accounting Standards Board (FASB) relative to prepaid health care services contracts and Statement of Statutory Accounting Principles No. 54, Individual and Group Accident and Health Contracts, issued by the National Association of Insurance Commissioners (NAIC). Such guidance provides premium deficiency reserve guidance specific to health insurance entities, and has been used by HealthTrust to clarify and supplement GASB GAAP guidance issued within GASB Statement No. 30 which is specific to property liability insurance coverage. Accordingly, in deriving the estimate of future health care costs and maintenance costs to be considered in determining whether a premium deficiency loss has been incurred, HealthTrust includes projections of fixed and variable, direct and allocable indirect costs allocated to each of its operating pools. No premium deficiency reserve was deemed necessary as of June 30, 2024. HealthTrust recorded a premium deficiency reserve in the amount of \$17.2 million as of June 30, 2023. Investment income was included as part of the calculation in determining if a premium deficiency existed. HealthTrust relies on the work of a consulting actuary to determine the premium deficiency reserve at June 30, 2024 and 2023.

## Notes to the Financial Statements (Continued)

#### **Note 6 - Premium Deficiency (Continued)**

A significant degree of judgment and uncertainty is involved in estimating premium deficiency reserves, which is increased due to the uncertainty caused by disruptions in health care trends caused by COVID-19 and medical claims inflation. Management believes that the premium deficiency reserve recorded represents its best estimate of the amount necessary to cover the cost of future claims HealthTrust is obligated to cover, however due to the uncertainty associated with actual claims, experience may not conform to the assumptions used in determining the current estimate. The ultimate liability could be significantly in excess of or less than the amount accrued in the financial statements. As adjustments to these estimates become necessary, they will be reflected in current operations.

#### **Note 7 - Property and Equipment**

HealthTrust's property and equipment balances and activity for the year ended June 30, 2024 are as follows:

	Beginning			Disposals/

Total property and equipment, net	\$ 4,633,558	\$ (151,459)	\$ 	\$	4,482,099

No impairment losses were recorded during the year ended June 30, 2024 or 2023.

### Notes to the Financial Statements (Continued)

#### Note 8 - Claims and Administration Reserves

As discussed in Note 2, HealthTrust establishes a liability for both reported and unreported covered events, which includes estimates of both future payments of claims and related claim adjustment credits. The following represents changes in the aggregate undiscounted claims and claims administration reserves for HealthTrust during the years ended June 30:

		2024	2023
Claims and administration reserves at beginning of year Incurred claims and claim adjustment expenses:	\$	38,536,655	\$ 36,539,606
Provision for covered events of current year		473,069,608	463,259,797
Adjustments to provision for covered events of prior years	_	(11,364,300)	 2,215,843
Total incurred claims and claim adjustment expenses		461,705,308	465,475,640
Payments of claims and claim adjustment expenses: Payments attributable to covered events of current year Payments attributable to covered events of prior years		(441,966,802) (24,620,654)	(428,586,942) (34,891,649)
Total payments		(466,587,456)	(463,478,591)
Claims and administration reserves at end of year	\$	33,654,507	\$ 38,536,655

Incurred claims and claim adjustment expenses included in claims payable on the statements of net position as of June 30, 2024 and 2023 are considered to have been paid for the purpose of the claims and claims administration reserves reconciliation above.

#### Note 9 - Transactions With Other Entities

HealthTrust leases office space from CTP pursuant to a lease agreement whose current term runs through June 30, 2024, and automatically renews for additional two-year terms unless either party notifies the other of its intent not to renew pursuant to the terms of the lease agreement. Total lease expense under this arrangement was \$277,717 and \$254,278 for the years ended June 30, 2024 and 2023, respectively, to cover its share of CTP's operating expenses based on HealthTrust's proportional usage of the building. CTP has included these amounts as operating revenues in the same year.

CTP leases office space to NHMA pursuant to a lease agreement that extends through May 30, 2026. Total lease income recorded by CTP under this arrangement was \$32,118 and \$33,928 for the years ended June 30, 2024 and 2023, respectively, to cover its share of CTP's operating expenses based on NHMA's proportional usage of the building.

### Notes to the Financial Statements (Continued)

#### Note 9 - Transactions With Other Entities (Continued)

HealthTrust received administrative and other business support services income from CTP pursuant to service agreements ratified by each entity's governing board. Under those agreements, HealthTrust earned and CTP expensed \$91,474 and \$88,887 related to support services during the years ended June 30, 2024 and 2023, respectively.

HealthTrust provides employee benefits coverage to its employees. HealthTrust also provides employee benefits coverage to the employees of NHMA, as participating Member Groups in HealthTrust. The associated revenue is included in contributions earned from Member Groups on the statements of revenues, expenses and changes in net position. The costs incurred by HealthTrust related to providing employee benefits coverage to its employees are included in salaries and benefits expense within operating expenses on the statements of revenues, expenses and changes in net position.

Although NHMA is not technically a related party to HealthTrust, transactions with this entity are reported here due to the historical relationship that previously existed between the entities.

#### Note 10 - Life Insurance and Long-Term Disability Programs

HealthTrust provides access for its Member Groups to life insurance and long-term disability coverage provided on a fully insured basis by other insurance companies. HealthTrust pays the premiums to the insurance providers on behalf of the participating Member Groups, which are then reimbursed to HealthTrust by the participating Member Groups. During the years ended June 30, 2024 and June 30, 2023, HealthTrust paid \$2,392,110 and \$2,166,875, respectively, in premiums for life insurance and long-term disability coverage. These amounts are included in both ancillary services revenue and as a component of claims administrative fees paid on the statements of revenues, expenses and changes in net position.

#### **Note 11 - Exemption from Statutory Accounting Practices**

HealthTrust was established for the benefit of the political subdivisions of the State of New Hampshire. As such, HealthTrust is not considered an insurer under the laws of the State, and administration of the activities of HealthTrust do not constitute conducting an insurance business for purposes of regulation or taxation. At June 30, 2024 and 2023, Statements of Statutory Accounting Practices as promulgated by the National Association of Insurance Commissioners are not applicable to HealthTrust.

## Notes to the Financial Statements (Continued)

#### Note 12 - Deferred Compensation Plan

The employees of HealthTrust are covered by a Section 457 Deferred Compensation Plan administered by MissionSquare Retirement (formerly ICMA Retirement Corporation). All full-time employees are immediately eligible to participate in the plan and may elect to defer up to 100% of their gross compensation up to the federal limits. Contributions to the plan and the related income on those contributions are held by MissionSquare Retirement.

Employee contributions to the deferred compensation plan totaled \$177,842 and \$166,611 for the years ended June 30, 2024 and 2023, respectively. There were no employer contributions during 2024 and 2023.

#### Note 13 - Defined Benefit Pension Plan

#### Plan Description

The HealthTrust/NHMA Pension Plan (the Plan) is a cost-sharing multiple-employer defined benefit pension plan. The Boards of Directors of the participating employers in the Plan, HealthTrust and NHMA, collectively retain the authority to establish, amend or terminate the Plan and its provisions at any time subject to any legal limitations. The Plan documents have established a Retirement Committee to administer the Plan. The majority of the members of the Retirement Committee are appointed by the Boards of Directors of the participating employers. HealthTrust appoints four of the nine members to the Retirement Committee. The Retirement Committee serves as the Plan administrator to the Plan and has discretionary authority regarding issues related to administration, interpretation and application of the Plan. All active, non-temporary employees of HealthTrust and NHMA are required to participate in the Plan as a condition of employment. The Plan provides a monthly benefit when a Plan participant retires or leaves after qualifying for benefits. The Plan does not issue a standalone financial report.

#### Summary of Significant Accounting Policies

GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* (Statement No. 68) establishes financial reporting requirements for most governmental organizations that provide their employees with pension benefits. In accordance with Statement No. 68, HealthTrust recognizes its proportionate share of the Plan's collective net pension liability and pension expense, and the related deferred outflows and inflows of resources, on the financial statements.

The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense reported by the Plan have been determined using the accrual basis of accounting in conformity with GAAP as applied to governmental entities. The Plan's investments are reported at fair value based upon quoted market prices.

### Notes to the Financial Statements (Continued)

#### Note 13 - Defined Benefit Pension Plan (Continued)

#### Benefits

The participants' benefits are established in the Plan and may only be changed with an amendment to the Plan. A participant's benefit is determined under a formula that multiplies the participant's final average earnings by her/his credited service. The formula is 1.50% of the final average earnings for each year of credited service, not to exceed 50% of the participant's final average salary. Final average salary is defined as the average of the highest three consecutive years out of the last ten years base salary prior to retirement or termination. Participants are eligible for normal retirement at age 65, or early retirement at the age of 55 with 10 years of credited service. If a participant chooses early retirement, the benefit will be reduced by 0.25% for each month prior to the normal retirement date. If a participant remains employed after age 65, benefits will continue to accrue without any actuarial adjustment for late retirement, however the maximum benefit shall not exceed 50% of the average final salary. Upon reaching eligible retirement age, a vested participant who elects to retire generally receives benefit payments in annuity installments based upon the participant's retirement elections; however, participants may elect to receive a lump sum payment if the lump sum benefit is less than \$10,000.

#### **Contributions**

The contribution requirements of the participating employers under the Plan are established and may be amended by the Retirement Committee based on the annual actuarial valuation of the Plan. The contribution requirements of the participating employees was established in the Plan and could only be changed with an amendment to the Plan.

For the plan years ended December 31, 2024, 2023 and 2022, the employees contribution rate is 5.5% and the employer's contributions are 9.16%, 8.99% and 9.08%, respectively, of each participant's earnings to the Plan.

A summary of employer and employee contributions to the Plan is as follows for the plan years ended December 31:

	Annual	Required	Em	ıployer	Employee		Percentage	
	Contri	butions	Contributions		Co	ntributions_	Contributed	
2023 2022	\$ \$	519,383 501.911	•	519,383 501.911		317,754 304.021	100% 100%	

#### Summary Plan Financial Information

The net pension liability was measured as of December 31, 2023 and 2022 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

## Notes to the Financial Statements (Continued)

## Note 13 - Defined Benefit Pension Plan (Continued)

A schedule of the Plan's fiduciary net position is as follows as of the plan year ended December 31:

		2023	 2022
Cash and cash equivalents Investments, at fair value:	\$	41,195	\$ 47,813
Exchange-traded funds Accounts payable		17,127,855 (17,418)	14,860,586 (19,675)
Net position available for pension benefits	<u>\$</u>	17,151,632	\$ 14,888,724

As of December 31, 2023 and 2022, the Plan's equities and exchange-traded funds are categorized as Level 1 in accordance with the fair value hierarchy and are valued based on quoted prices for identical assets in active markets.

Plan fiduciary net position - beginning	 14,888,724	 17,934,339
Plan fiduciary net position - ending (b)	 17,151,632	 14,888,724
Net pension liability - ending (a) - (b)	\$ 3,147,549	\$ 4,855,887
Plan fiduciary net position as a percentage of total		
pension liability	84.49 %	75.41 %
Covered payroll	\$ 5,777,345	\$ 5,527,655
Net pension liability as a percentage of covered payroll	54.48 %	87.85 %

An independent consulting actuary was engaged to perform the annual actuarial valuation as of December 31, 2023 and 2022. The information included in the schedule of changes in net pension liability and relative funding progress of the Plan from the December 31, 2023 and 2022 actuarial valuations was prepared using the entry age normal cost method. The purpose of providing the above schedule is to provide information that serves as a surrogate for the funded status and funding progress of the Plan. The assumptions for the pension liability are outline later in this note to the financial statements.

## Notes to the Financial Statements (Continued)

## Note 13 - Defined Benefit Pension Plan (Continued)

The schedule of total pension expenses is as follows for the plan years ended December 31:

		2023	2022
Service cost	\$	520,077	\$ 622,106
Interest on total pension liability		1,188,648	1,120,337
Current year benefit changes		-	-
Employee contributions		(317,754)	(304,021)
Projected earnings on Plan investments		(889,079)	(1,072,294)
Plan administrative expenses		50,563	31,306
Recognition of outflow (inflow) of resources			
due to liabilities		7,493	94,008
Recognition of outflow (inflow) of resources			
due to assets		(33,477)	637,803
Total pension expenses	<u>\$</u>	526,471	1,129,245

## **Actuarial Assumptions**

The significant assumptions and methods used in the actuarial valuations for the December 31, 2023 and 2022 measurement periods are as follows:

	2023	2022
Actual cost method:	Entry age normal cost method	Entry age normal cost method
Investment rate of return:	6.0%	6.0%
Price inflation rate:	2.40%	2.40%
Projected salary increases:	3.0% including inflation	3.0% including inflation
Cost-of-living adjustments:	None	None
Retirement age:	Age 65 for Normal Retirement and 55 for Early Retirement with 10 years of credited service. Retirement age assumptions are as follows:	Age 65 for Normal Retirement and 55 for Early Retirement with 10 years of credited service. Retirement age assumptions are as follows:
	- 5% retire annually ages 55 - 58	- 5% retire annually ages 55 - 58
	- 10% retire annually ages 59 - 64	- 10% retire annually ages 59 - 64
	- 50% retire at 65 years	- 50% retire at 65 years
	- 20% retire annually ages 66 - 69	- 20% retire annually ages 66 - 69
	- 100% are retired by age 70	- 100% are retired by age 70
Mortality assumptions:	PubG-2010 Mortality Table with generational projection per the MP- 2021 Ultimate scale	PubG-2010 Mortality Table with generational projection per the MP- 2021 Ultimate scale
Section 417(e) interest rate:	Option factors are currently based on the IRC Section 417(e) applicable mortality and interest.	Option factors are currently based on the IRC Section 417(e) applicable mortality and interest.

### Notes to the Financial Statements (Continued)

#### Note 13 - Defined Benefit Pension Plan (Continued)

Additional significant assumptions and methods used in the actuarial projections and determination of contribution rates for December 31, 2023 and 2022 are as follows:

	2023	2022
Asset valuation method:	5 year smoothed market; Non- asymptotic recognition, No corridor	5 year smoothed market; Non- asymptotic recognition, No corridor
Amortization method:	Level percentage of payroll, closed	Level percentage of payroll, closed
Amortization period:	Two separate layers:	Two separate layers:
	December 31, 2017 and prior - 14 years with 8 years remaining	December 31, 2017 and prior - 14 years with 9 years remaining
	Subsequent to December 31, 2018 - 20 years with 15 years remaining	Subsequent to December 31, 2018 - 20 years with 16 years remaining

#### Single Discount Rate and Long-Term Expected Rate of Return

A Single Discount Rate of 6.00% was used to measure the total pension liability as of December 31, 2023 and 2022. The projection of cash flows used to determine this Single Discount Rate assumed that Plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The Single Discount Rate is based on the long-term expected rate of return on Plan investments and the long-term tax-exempt municipal bond rate. As of December 31, 2023 and 2022, the long-term expected rate of return on Plan investments is 6.00%.

The long-term expected rate of return on Plan investments was determined using a building block method in which expected future real rates of return (expected returns, net of Plan investment expenses and inflation) are developed for each major asset class. These real rates of return are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

## Notes to the Financial Statements (Continued)

#### **Note 13 - Defined Benefit Pension Plan (Continued)**

For each major asset class that is included in the Plan's target asset allocations as of December 31, 2023, these best estimates are summarized in the following table:

			Allocation-
			Weighted
		Long-Term	Long-Term
	Target Asset	<b>Expected Real</b>	<b>Expected Real</b>
Asset Class	Allocation	Rate of Return	Rate of Return
US core fixed income	40 %	2.2 %	0.88 %
US broad equity market	43 %	5.5 %	2.37 %
Non-US equity	<u>17 %</u>	7.7 %	1.31 %
Total	100 %		4.56 %
Expected inflation rate			1.44 %
Total return			6.00 %

#### Discount Rate Sensitivity Analysis

The following presents HealthTrust's proportionate share of the net pension liability, calculated using the Single Discount Rate of 6.0%, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.0%) or one percentage point higher (7.0%) than the Single Discount Rate as of June 30, 2024:

HealthTrust's	1% Rate		C	urrent Single		1% Rate		
Proportionate Share of the	Decrease			Discount Rate	Increase			
Net Pension Liability		(5.0%)		(6.0%)		(7.0%)		
June 30, 2024	\$	4,888,584	\$	2,647,970	\$	772,987		

### Net Pension Liability and Pension Expense

As of June 30, 2024 and 2023, HealthTrust reported a net pension liability of \$2,647,970 and \$4,172,032, respectively, and a pension expense of \$440,681 and \$972,396, respectively, for its proportionate share of the Plan's net pension liability.

## Notes to the Financial Statements (Continued)

#### **Note 13 - Defined Benefit Pension Plan (Continued)**

The schedule of each employer's proportionate share of the collective net pension liability and pension expense is as follows as of and for the years ended June 30:

		20	24		2023				
	Net Pension Liability			Pension Expense		Net Pension Liability		Pension Expense	
HealthTrust NHMA	\$	2,647,970 499,579	\$	440,681 85,790	\$	4,172,032 683,855	\$	972,396 156,849	
Total	\$	3,147,549	\$	526,471	\$	4,855,887	\$	1,129,245	

The net pension liability was measured as of December 31, 2023 and 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

For the December 31, 2023 and 2022 valuations, HealthTrust's and NHMA's proportionate share of the collective net pension liability was based on each entity's contributions to the Plan relative to the contributions of HealthTrust and NHMA for the period from January 1<sup>st</sup> to December 31<sup>st</sup> of the respective year.

At December 31, 2023 and 2022, HealthTrust's proportion of the collective net pension liability was 84.13% and 85.92%, respectively, and HealthTrust's proportion of the pension expense was 83.70% and 86.11%, respectively.

There were no changes to benefit terms for December 31, 2023. There were no changes between the measurement date of the collective net pension liability of December 31, 2023 and HealthTrust's reporting date of June 30, 2024 that are expected to have a significant impact on HealthTrust's proportionate share of the collective net pension liability.

## Notes to the Financial Statements (Continued)

#### **Note 13 - Defined Benefit Pension Plan (Continued)**

Deferred Outflows and Inflows of Resources

As of and for the fiscal years ended June 30, 2024 and 2023, HealthTrust reported its proportionate share of the Plan's deferred outflows and inflows of resources related to pensions from the following sources:

		June 3	0, 2	2024		June 30, 2023				
		Deferred		Deferred	d Deferred			Deferred		
	(	Outflows of	Inflows of			Outflows of		Inflows of		
		Resources		Resources		Resources		Resources

Total	\$	576,876					

### Notes to the Financial Statements (Continued)

#### Note 14 - Leases

HealthTrust leases office space from CTP pursuant to a lease agreement whose current term runs through June 30, 2024, and automatically renews for additional two-year terms unless either party notifies the other of its intent not to renew pursuant to the terms of the lease agreement. As of June 30, 2024, HealthTrust and CTP have estimated the currently enforceable lease term for GASB 87 to be through June 30, 2026. In addition, HealthTrust entered into two equipment lease agreements. Health Trust and CTP utilize its incremental borrowing rate to measure its office leases and the lease implicit rate to measure equipment leases.

In accordance with GASB 87, HealthTrust recognized a right of use asset and lease liability upon adoption of GASB 87. As of June 30, 2024, the right of use asset and lease liability balances were \$587,279 and \$591,967, respectively. As of June 30, 2023, the right of use asset and lease liability balances were \$416,453 and \$459,845, respectively.

HealthTrust's future minimum lease payments and the net present value of those payments and weighted average discount rate used as of June 30, 2024, along with the total lease cost for the year then ended, are as follows:

		5				
Years ending June 30:	Office Space			Equipment		Total
2025	\$	277,550	\$	58,090	\$	335,640
2026		277,550		6,831		284,381
2027		-		6,831		6,831
2028		-		4,554		4,554
2029			_			<u>-</u>
Future undiscounted lease payments		555,100		76,306		631,406
Less present value discount		35,253		4,186		39,439
Lease liabilities	\$	519,847	\$	72,120	\$	591,967
Weighted average discount rate		6.95 %	_	5.17 %		6.73 %
Total lease cost	\$	240,390	\$	124,797	\$	365,187

## Notes to the Financial Statements (Continued)

#### Note 14 - Leases (Continued)

HealthTrust's right of use asset and related accumulated amortization as of June 30, 2024 and 2023, are as follows:

	Office Space			Equipment	Total
Right of use asset Accumulated amortization	\$	1,287,828 (767,980)	\$	359,838 (292,407)	\$ 1,647,666 (1,060,387)
Net right of use asset	\$	519,848	\$	67,431	\$ 587,279
				2023	
	Of	fice Space		2023 Equipment	Total
Right of use asset	<u>Of</u>	fice Space 767,981	\$		\$ Total 1,219,532
Right of use asset Accumulated amortization		•	\$	Equipment	\$

CTP's rent receivable asset and deferred inflow of resources liability balances were \$968,041 and \$946,006, respectively as of June 30, 2024. CTP's rent receivable asset and deferred inflow of resources liability balances were \$719,105 and \$668,026, respectively as of June 30, 2023.

CTP leases office space pursuant to lease agreements whose current terms runs through various dates ranging from June 30, 2025 to December 31, 2029.

CTP's future minimum lease receipts and the net present value of those receipts as of June 30, 2024 are as follows:

	Mini	mum Lease
	ı	Receipts
Years ending June 30:	Of	fice Space
2025	\$	438,689
2026		423,164
2027		113,843
2028		46,058
2029		21,546
2030-2034		10,932
Future undiscounted rent receipts		1,054,232
Less present value discount		(86,191 <u>)</u>
Rent receivable	\$	968,041

### Notes to the Financial Statements (Continued)

#### Note 14 - Leases (Continued)

Rent income recognized by CTP during the year ended June 30, 2024 totaled \$503,674 and included \$115,830 in rental income on short-term leases not included in the expected future lease payments reported above. Interest income recognized by CTP on rental agreements for the year ended June 30, 2024 totaled \$33,531. Rent income recognized by CTP during the year ended June 30, 2023 totaled \$522,219 and included \$110,835 in rental income on short-term leases not included in the expected future lease payments reported above. Interest income recognized by CTP on rental agreements for the year ended June 30, 2023 totaled \$43,542.

#### **Note 15 - Subscriptions Assets**

HealthTrust implemented a hosted subscription based information technology system (OneSource) for underwriting, client data, and other functions. As of June 30, 2024, HealthTrust has estimated the current OneSource subscription term for GASB 96 to be through June 30, 2026. OneSource was placed into service on April 1, 2022. Costs incurred for OneSource through June 30, 2021 of \$1,179,846 were reported as capitalized and prepaid system costs as of June 30, 2021. Capitalized and prepaid system costs for OneSource were included within the subscription asset calculation as of April 1, 2022. HealthTrust utilized its incremental borrowing rate of 5.27% as of April 1, 2022 to measure its subscription asset.

In accordance with GASB 96, the Company recognized a subscription asset and subscription liability upon adoption of GASB 96. As of June 30, 2024, the subscription asset and subscription liability balances were \$2,745,868 and \$1,483,433, respectively. As of June 30, 2023, the subscription asset and subscription liability balances were \$4,118,801 and \$2,544,363, respectively

HealthTrust's future minimum subscription payments and the net present value of those payments and weighted average discount rate used as of June 30, 2024, along with the total subscription cost for the year then ended, are as follows:

	Minimum ubscription
	Payments
Years ending June 30:	
2025	\$ 1,199,888
2026	 388,652
Future undiscounted subscription	
payments	1,588,540
Less present value discount	 (105,107)
Subscription liability	\$ 1,483,433

### Notes to the Financial Statements (Continued)

#### Note 15 - Subscriptions Assets (Continued)

HealthTrust's subscription asset and related accumulated amortization as of June 30, 2024 and 2023, are as follows:

	 2024	2023
Subscription asset	\$ 5,834,967	\$ 5,834,967
Accumulated amortization	 (3,089,099)	 (1,716,166)
Net subscription asset	\$ 2,745,868	\$ 4,118,801

#### **Note 16 - Litigation Update**

As of June 30, 2024 and 2023, HealthTrust was not involved in any pending litigation.

### **Note 17 - Contingencies**

HealthTrust assesses potential liabilities in connection with lawsuits and threatened lawsuits under GAAP. HealthTrust accrues an estimated loss for loss contingencies if both of the following conditions are met: (1) information available prior to issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements; and (2) the amount of loss can be reasonably estimated. As of June 30, 2024 and June 30, 2023, HealthTrust did not accrue any contingent liability in connection with lawsuits or threatened lawsuits.

## Reconciliation of Claims Liabilities by Type of Contract (Unaudited)

Year ended June 30, 2024

The schedule below presents the changes in claims liabilities for HealthTrust's three types of contracts, employee health, dental benefits and short-term disability, for the year ended June 30, 2024:

		Health		Dental		Short-Term Disability		Total
Claims and administration recordes at heginning of	_	ricaitii	_	Deritai	_	Disability	_	Total
Claims and administration reserves at beginning of fiscal year	\$	37,024,484	\$	1,247,388	\$	264,783	\$	38,536,655
Incurred claims and claim adjustment expenses: Provision for covered events of current year Adjustments to provision for covered events of prior years		443,302,678 (10,959,978)		28,304,463 (349,016)		1,462,467 (55,306)		473,069,608 (11,364,300)

Total claims and administration reserves at end of fiscal year	\$	32,055,914	\$	1,314,624	\$	283,969	\$	33,654,507

## Reconciliation of Claims Liabilities by Type of Contract (Unaudited)

Year ended June 30, 2023

The schedule below presents the changes in claims liabilities for HealthTrust's three types of contracts, employee health, dental benefits and short-term disability, for the year ended June 30, 2023:

		Health		Dental		Short-Term Disability		Total
Claims and administration reserves at beginning of fiscal year	\$		\$	1,236,340	\$	213,330	\$	36,539,606
Incurred claims and claim adjustment expenses: Provision for covered events of current year Adjustments to provision for covered events of prior years		434,782,444 2,587,461		27,082,415		1,394,938		463,259,797 2,215,843
Total incurred claims and claim adjustment expenses		437,369,905		26,719,996		1,385,739		465,475,640
Payments of claims and claim adjustment expenses:								
Payments attributable to covered events of current year Payments attributable to covered events of		(401,579,960)		(25,876,827)		(1,130,155)		(428,586,942)
prior years	_	(33,855,397)	_	(832,121)	_	(204,131)	_	(34,891,649)
Total payments		(435,435,357)		(26,708,948)		(1,334,286)	_	(463,478,591)
Total claims and administration reserves at end of fiscal year	\$	37,024,484	\$	1,247,388	\$	264,783	\$	38,536,655

## Ten-Year Schedule of Claims Development Information (Unaudited)

Fiscal period ended June 30, 2024

The following claims development information includes health, dental and short-term disability contracts. The table illustrates how HealthTrust's earned revenues (net of reinsurance) and investment income compare to related costs of claims and claim adjustment expenses (net of loss assumed by reinsurers) and other expenses assumed by HealthTrust for the fiscal periods ended June 30, 2017 through June 30, 2024. The rows of the table are defined as follows:

- Total of each fiscal period's gross earned contributions revenue and investment revenue, contributions revenue ceded to reinsurers, and net earned contributions revenue and investment revenue.
- 2. Other operating costs of HealthTrust, including overhead and claims expenses not allocable to individual claims for each fiscal period.
- 3. Gross incurred claims and allocated claims adjustment expenses, claims assumed by reinsurers, and net incurred claims and allocated adjustment expenses (both paid and accrued) as originally reported at the end of the first fiscal period in which the event that triggered coverage under the contract occurred (called *policy year*).
- 4. This section shows the cumulative net amounts paid as of the end of each fiscal period and annually thereafter.
- 5. The latest re-estimated amount of claims assumed by reinsurers as of the end of each fiscal period.
- 6. This section of rows shows how each policy year's net incurred claims increased or decreased as of the end of each fiscal period and annually thereafter. This re-estimation results from new information received on known claims, reevaluation of existing information on known claims, and emergence of new claims not previously known.
- 7. This section compares the latest re-estimated net incurred claims amount to the amount originally established (line 3) and shows whether this latest estimate of net claims cost is greater or less than originally thought.

The columns of the table show data for successive fiscal periods.

As data for individual policy years matures, the correlation between original estimates and reestimated amounts commonly is used to evaluate the accuracy of net incurred claims currently recognized in less mature policy years.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* 

Board of Directors HealthTrust, Inc.

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States of America, the financial statements of HealthTrust, Inc. (HealthTrust) and its discretely presented component unit, which comprise the statement of net position as of June 30, 2024 and the related statements of revenue, expenses and changes in net position and cash flows for the year then ended and the related notes to the financial statements, and have issued our report thereon dated October 23, 2024.

### Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered HealthTrust's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of HealthTrust's internal control. Accordingly, we do not express an opinion on the effectiveness of HealthTrust's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether HealthTrust's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of HealthTrust's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering HealthTrust's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
